LEARNING TECHNOLOGY | LMS IMPLEMENTATION | FRONT-END DEVELOPMENT

Learning technologist who builds the technical layer of learning programs: LMS selection and administration, Python automation for course operations, and React and TypeScript front ends. An M.Ed. in instructional design and a psychology background mean I can talk to both designers and engineers.

EXPERIENCE

Instructional Designer February 2026 - Present
WeYouth (501(c)(3) nonprofit), North Salt Lake, UT

- Evaluated learning management systems against organizational requirements and delivered the platform recommendation the nonprofit adopted and runs on
- Implemented the platform end to end: course and module architecture, assessment configuration, and cohort enrollment across three learner tracks
- Own technical support for the platform, from administrator onboarding to resolving learner and coach access issues

Instructional Design Intern May 2025 - July 2025
Chartway Credit Union (Financial Wellness team), South Jordan, UT

- Ran a mixed-methods needs analysis (five interviews, 21 survey responses) for a certification-preparation program and delivered evidence-based recommendations

Learning Technology Specialist (Contract) March 2023 - August 2023
National Association of Certified Valuators and Analysts (NACVA), via Robert Half, Sandy, UT

- Automated about 80 hand steps per course in the LMS and online store with Python and Selenium
- Wrote a converter that imported exam questions from Word instead of retyping them
- Turned 50+ webinars into on-demand CE courses in Camtasia, published as SCORM via Articulate Presenter

Help Desk Specialist January 2021 - May 2024
All Season Control Cover, Salt Lake City, UT

- Diagnosed user-reported problems and implemented fixes, translating technical detail into plain guidance

EDUCATION

Master of Education (M.Ed.), Instructional Design & Educational Technology: University of Utah, August 2023 - May 2025. GPA 3.9. 30 credit hours across five semesters.

Bachelor of Science, Psychology: Brigham Young University - Idaho, 2012 - 2018. Certificate in Programming.

SELECTED TECHNICAL WORK

LMS implementation: Platform evaluation, course architecture, assessment and enrollment configuration, and ongoing administration for a youth nonprofit

Course processing automation: Python and Selenium scripts that automated course setup at a certification body

Variable-interval timer: Unfinished Android app for timing variable-interval reinforcement in ABA therapy

Articulate Storyline 360 course: 278-slide branching scenario build

This portfolio site: React 18, TypeScript, Vite and Tailwind, with a typed content layer, automated tests and CI

SKILLS

Languages: Python, JavaScript, TypeScript, C++, HTML/CSS

Frameworks: React, Node.js, Tailwind CSS, Vite

Learning platforms: LearnWorlds, Canvas LMS, Articulate Storyline 360, SCORM packaging

Tools: Git, VS Code, Camtasia, Adobe Creative Suite
